CROUNTED TO Title: PROCESS FOR THE PREPARATION OF AN IMPACT-RESISTANT POLYMER

**COMPOSITION** 

April 21, 2003

RECEIVED

AMENDMENT

APR 2 4 2003

Hon. Commissioner of Patents Washington, D.C. 20231

TECH CENTER 1600/2900

Sir:

In response to the Office Action dated January 22, 2003, please amend the above identified application as follows:

## IN THE CLAIMS:

## Please enter the following amended claims:

- 1. (Amended) Process for the preparation of an impact-resistant polymer composition comprising a rubber composition dispersed in a matrix polymer, said process comprising melt mixing a solid matrix polymer A with a solid comprising said rubber composition dispersed in a matrix polymer B at a weight ratio of matrix polymer B to rubber composition in the range of 80:20 to 30:70, wherein the solid dispersion of said rubber composition in matrix polymer B is the product obtained by melt mixing of matrix polymer B with a rubber composition that contains at least one functionalized rubber containing groups that can react with matrix polymer A and/or B, and at least one non-functionalized rubber and wherein said impact-resistant rubber composition comprises 0.5-75 parts by weight of rubber composition per 100 parts by weight in total of matrix polymers A and B.
- 2. (Unchanged) Process according to claim 1, wherein matrix polymer B is identical to matrix polymer A.
